DETAILED ACTION

Applicants' response, which included amendment to claims 13, 18, 19, and 20, filed on 2/26/2004, is made of record.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

In view of applicants' response, all 112 second paragraph rejections made in the previous office action have been obviated. Furthermore, in view of applicants amendment to claims 13, 18-20 and assertion that instant compound is not a hydrochloride as taught in Kristinsson et al. and that there is no hint in both the cited prior art that the compound of formula 1 likely to form hydrate, 102/103 rejections over Kristinsson et al. and 102 rejection over Rapold et al. are deemed as obviated.

The compound of formula I recited in claim 1 namely, pymetrozine hydrate wherein $s = 2$, its pesticidal composition, and process of making the pesticidal composition, as embraced in the instant claims was not found to be anticipated or rendered obvious by the prior art of record. Additional search in the related art area also did not yield any prior art disclosing pymetrozine hydrate, its pesticidal composition, and process of making the pesticidal composition, embraced in the instant claims. Therefore, the examiner noted that the claims 13-20 would be in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
